

# Garden of Happiness

Christine Högl celtic harp

"The Garden of Happiness" is a nature poetry program with magical harp music. The name symbolizes a little paradise that is both outdoor in nature and in the heart to be found and preserved.

## Take time for dreaming

We expect an experience for all senses while going on a journey with the heavenly gardener Rosalie. Rosalie sees a world full of sunshine, dream clouds, wonderful flowers and colorful butterflies. She loves to play on her harp, listen to the wind and visit her friends in the Garden of Happiness. It is a little paradise where everything is possible and dreams come true. Music and poetic stories create quiet moments of dreaming. The harp sounds and nature open heart and soul, and that feels good.

## Nature and music

I like the wind and the birdsong in the trees, the beauty and delicacy of the flowers, the fascination of clouds and the light, the silence in the forest... and I like to eat fresh fruit and vegetables from the garden. In my life I had the chance to experience a lot of nature's beauty. That fills me with gratitude. I am amazed at how much I can learn from nature. It whispers in many ways fine melodies into my heart and soul. That's what my music is about.

## About Me

I am raised in Upper Bavaria and have been playing harp since childhood. My intimate connection of music and nature brings beauty and joy to my life. This is my 'treasure box' which I like to share. From classical concert soloist to street musician I have experienced the whole range in many creative projects. My main activities were multimedia live concerts "Harp Music under the Stars" in planetariums, open-air concerts in gardens and "Music of Silence" in old churches. For my compositions I received an international award.
